

CHICKS NEED EQUIPMENT! If you don't have this at home already, you will need to purchase it. Ideally the equipment should be set up and the lamp should be warming the space BEFORE you bring the chicks home.

Chick starter feed

Heat lamp and proper fixture

Chick-sized feeder and water

Shavings

Large tote for containing chickens (NOT A CARDBOARD BOX- FIRE HAZARD!)

I understand that young poultry are fragile and highly susceptible to pneumonia and other diseases. I therefore release Andy's Farm and Garden, its owners, and employees from any liability for the health of the poultry after they leave the store. I understand that **poultry cannot be returned and that refunds cannot be given for any poultry that may die in my care.** I also understand that poultry may or may not be sexed at the hatchery and that this process may not be 100% accurate. Chicks that are roosters may not be returned to Andy's Farm and Garden.

Please bring this bottom form with you when you pick up your chicks.
